

Dear Ladies and Gentlemen,

the FCC has introduced a new broadcast service known as the LPFM and is now proposing to expand this service in a way that would allow these new LPFM stations to take priority over current FM translator service. National or regional services such as K-Love are heard on FM translators. If LPFM is given a priority over FM translator service, this might leave many people without the K-Love signal. We have been listenig to K-Love for a number of years and we don't want to see it vanish from the air waves!!! We love the wholesome values K-Love promotes, the family friendly programming, it's positive influence on the listeners, on our family. K-Love is encouraging all the time! We all need to be encouraged every day, we all need to be positively influenced every day to do the right thing, not the "do whatever feels good to you" thing. And the latter does get promoted on most radio-stations unfortunately. How can children grow up into responsible adults if they get bombarded with garbage and filth 24 hours a day? Everywhere you turn it's there: TV, Schools, Radio, Malls and so on. Garbage in, garbage out!!! Since we are listening to K-Love around the clock, we have become witnesses to people's lives being changed from hopeless to hopeful, from wanting to commit suicide to wanting to live, from being hateful to becoming loving and kind and much more! When I wake up in the morning and hear the music with a positive, uplifting message that K-Love plays 24 hours a day, it starts the day out right, it sets the mood for the whole day. K-Love made and continues to make a difference in my family and in the lives of many, many others. I would like to encourage the FCC to listen to K-Love because all of us need to be positively influenced and encouraged every day. Then watch and see the positive impact!!! I am a firm believer of what we expose ourselves to is what we become. So if we expose ourselves to the negative that's what we become and if we expose ourselves and our children to the positive that's also what we become. So please, don't allow K-Love to be forced off the air, we all should be allowed to choose what we want to listen to or not. Sincerely, J&HB
